Members Lean Towards the Retention of the Income Tax.

(By Associated Press ) WASHINGTON, Feb. 8.-The sugar schedule is receiving more attention at sub-Committee engaged on the Tariff bill than any other feature. The Committee has not yet decided upon any definite recommendation and the outlook is not the Department since Monday. mite as bright for the sugar men as t was vesterday. The chances are still favorable, however, that some duty will

One of the members of the sub-com mittee said this morning that if it was possible to retain free sugar and still inspire sufficient revenue to meet the expenses of the Government he would be n favor of leting the bill go in without making any change in this schedule They are in doubt as to whether this can be done, and feel that it will be ex tremely difficult to arrange it in that way if the income tax feature of the bill s to be stricken out or modified, which

is to be stricken out or modified, which they admit is possible.

Nothing has as yet occurred in subcommittee to justify the hopes of the sugar duty advocates of receiving as much as 11-2 cents per pound, and it does not look as if the duty would undering circumstances be made so high. The proposition which has met with nost favor at the hands of the Committee is one placing a duty of 2-1 of a cent per pound on sugar under 75 of the polariscope test and gradually increasing the duty on the higher grades.

The Committee is undecided between this, another proposition for a specific luty of say a cent a pound for all sugars and a proposition to let free sugar remain in the bill.

The income tax feature of the bill is giving the Committee uneasiness, but it

main in the bill.

The income tax feature of the bill is giving the Committee uneasiness, but it has not so far received the attention that the sugar schedule has It will in all probability be treated largely as a matter of expediency, and its retention, rejection or modification will depend argely upon the prospect of passing the bill with or without it. The Committee leans to the retention of the tax, but there is still considerable apprehension that if it is retained it may imperil the bill in the Senate.

He told Capt. Campbell that he was at tacked on the corner of Concord and Bridge streets, and that his assailant had taken a roll of bills from his waist cont pocket. Taggart was under the influence of

session his gold watch and chain and \$3.43 in change. He was locked up, and Detrective Dolan was detailed to investigate his story.

Dolan learned from Mrs. Taggart that her husband had left home early in the evening with at least \$300 in his nockets. At midnight he entered McKenna's saloon at Concord and Bridge streets. There was a crowd in front of the bar.

Taggart was then in a jolly mood and offered to buy drinks for several men in the party. He displayed a large roll of bills when he paid for the drinks.

Some time afterwards he started to go home. A man who had been in the saloon followed him outside.

Taggart alleges that he was attacked immediately after leaving the saloon. The bartender, however, says that he did not hear any scuffle.

Detective Dolan found two hats in the gutter, one of which belonged to Taggart. Capt. Campbell is satisfied that the man's story is true and the detectives are still looking for his assailant.

by the Department liself.

Burtis had made all his arrangements to have thousands of loads of dirt dumped at One Hundred and Tenth attest within the next few weeks, and he must lose the profits he expected to make because he will have to pay extra large sums for dumping privileges elsewhere, in order to carry out the contracts he made with contractors for taking from them a certain number of loads a day.

Burtis paid the Park Department 25 that the will sue the railroad for damages.
